

## AVIATION SUPPLY CHAIN

# Inventory Management Programs

Aviation Supply Chain services are just one part of AAR's broad portfolio of innovative solutions for commercial and government customers. We also offer a wide range of maintenance, repair and overhaul services, structures and systems manufacturing and aircraft sales and leasing.

We've got what you need ... when you need it ... where you want it. As one of aviation's leading distributors of factory-new parts and services, AAR Allen Asset Management offers our customers innovative solutions to meet the ever-changing needs of the aviation marketplace. We provide value-added supply chain solutions, with services ranging from simple parts support to complete supply chain management.

### Customer Benefits:

- ▶ Lower overall operating costs with cost-effective, turnkey solutions, to improve fill rates and ensure on-time delivery.
- ▶ Consolidate your vendor base and streamline operations with comprehensive support and an extensive product offering from a single source.
- ▶ Reduce investment in surplus inventory and minimize operational expenses with streamlined supply chain and customized inventory management solutions.
- ▶ Drive down overall cost of ownership with design improvements and new product development.
- ▶ Improve information flow and experience complete visibility throughout the project through seamless integration with existing business systems and multivendor environments.
- ▶ Increase confidence by partnering with an industry leader and leveraging AAR's global presence and diverse product/service offerings to meet all of your program needs.

### Competitive Differentiators:

- ▶ *Experience* – We have extensive supply chain experience and can tailor solutions to meet our customers' needs. Our professional staff possesses an in-depth knowledge of the industry, supply chain solutions, warehousing, customer support and IT solutions.
- ▶ *Availability* – We maintain one of the industry's largest and most complete inventories of new and refurbished parts, stocking more than 35,000 items from 250 manufacturers.
- ▶ *Strength and Flexibility* – We have the global reach and financial strength to move quickly to capitalize on procurement opportunities – large or small – whenever and wherever they become available.
- ▶ *Customization* – We work to specific customer requirements by packaging repair services, superior IT infrastructure and logistics expertise to provide the customer with customized solutions.

- 
- ▶ *Quality Control* – We are ISO 9000 certified and our proven reliability and program performance continually meet or exceed customer expectations.
  - ▶ *Scale* – AAR combines the flexibility and agility of a small company with the resources and reach of a large corporation, providing access to AAR's full range of aviation and aerospace products and support services.
