Mobility Shop Container

FEATURES

- Two models available, Mobility Shop Container (MSC) and MSC Office
- Fits on standard 5-ton truck, Family of Medium Tactical Vehicles, HEMTT, Flatbeds, PLS Flatracks, and more
- Designed to be positioned on the ground, allowing transport vehicles to be available to perform other functions
- 2-Way forkliftable using standard 10,000 lb. fork truck with 72" tines
- Equipped with tie-down rings at four upper corners and 25" above the base corners
- Securable, interior emergency release built into the single entry personnel door at rear
- Transportable stairs that easily attach for easy entry and exit
- 120/208V, 3PH, WYE/60A power distribution that controls permanently mounted 120V electrical outlets placed above the work benches and along the walls
- Standard lighting package includes 120V fluorescent lights and a 24 VDC emergency and blackout light system
- Comes equipped with Environmental Control Unit (ECU), exhaust fan, and a dehumidification system to maintain a comfortable working environment and to ensure all supplies/tools/test equipment are constantly maintained in the best possible condition
- Both models are equipped with a work bench, overhead book shelves, task lighting, parts trays on the left hand side, and shelves, trays, power strips, clothes closet and power panel on the right hand side, plus slave cable and floor cargo nets
 - Mobility Shop Container (PN 50353-001) is also equipped with under-bench shelves
 - MSC Office (PN 50353-002) is also equipped with a fold-down work bench and computer cabinets
