Mechanic Hydraulic

The position

As a Hydraulic Mechanic, you'll work on a variety of aircraft hydraulic components. From cylinders to servo valves, you'll ensure every unit is safe, reliable, and meets aviation standards.

- Overhaul hydraulic components such as actuators and pumps
- Perform testing using specialized equipment
- Interpret manuals and OEM data
- Document work processes and ensure traceability
- Support continuous improvement and quality goals

Total rewards

As an AAR team member your rewards include:

- Competitive salary based on experience
- 8% holiday allowance and 7% end-of-year bonus
- Profit-sharing opportunities
- Flexible start time between 6:00 AM and 9:00 AM
- 27 vacation days + 3.5 additional ADV days
- Comprehensive pension plan
- Supportive team culture focused on growth and innovation

Performance objectives

Technical expertise – applies knowledge of hydraulic systems to perform accurate inspections, repairs, and testing

Precision – works with high attention to detail to ensure safe, leak-free, and regulation-compliant components

Problem-solving – diagnoses faults in hydraulic units effectively and contributes to root cause analysis

Process compliance – follows manuals, OEM instructions, and regulatory standards with discipline

Team collaboration – works closely with fellow mechanics, engineers, and quality staff to maintain workflow and quality

Continuous improvement – actively suggests improvements to repair processes, tools, or documentation

Education and experience

- MBO level 4 in mechanical or aerospace engineering
- Minimum 3 years' experience in hydraulic repairs
- Familiarity with aviation documentation
- Fluent in Dutch and English
- We are looking for a candidate who lives in The Netherlands, preferably in or near Hoofddorp.

Why should you apply?

At AAR, “Doing it right” means putting quality, safety, and people first. You’ll be part of a global leader in aviation where your leadership makes a real difference every day.
