Mechanic Rotating Equipment

The position

As a Mechanic for Rotating Equipment, you'll be responsible for the repair and overhaul of aircraft components such as motors, actuators, and pumps. You'll work hands-on with precision equipment and ensure the highest quality standards are met.

- Disassemble, inspect, and reassemble rotating components
- Perform functional and pressure tests
- Troubleshoot technical issues in collaboration with engineers
- Ensure documentation and repair processes are accurate and compliant
- Contribute to a clean, safe, and organized workspace

Total rewards

As an AAR team member your rewards include:

- Competitive salary based on experience
- 8% holiday allowance and 7% end-of-year bonus
- Profit-sharing opportunities
- Flexible start time between 6:00 AM and 9:00 AM
- 27 vacation days + 3.5 additional ADV days
- Comprehensive pension plan
- Supportive team culture focused on growth and innovation

Performance objectives

Technical quality – consistently delivers high-quality, precise repair work

Teamwork – works effectively in a team-oriented environment

Communication – communicates clearly in both Dutch and English

Independence – completes tasks reliably and proactively

Continuous improvement – contributes to technical and operational enhancements

Education and experience

- MBO level 4 in mechanical or aerospace engineering

- At least 3 years of experience with rotating components
- Ability to read technical documentation and procedures
- Fluent in Dutch and English
- Residing in the Netherlands, preferably near Hoofddorp

Why should you apply?

At AAR, “Doing it right” means putting quality, safety, and people first. You’ll be part of a global leader in aviation where your leadership makes a real difference every day.
