Mechanic Small Electric Components

The position

You will work with precision to repair and overhaul small electrical components used in aircraft systems. This includes lighting units, relays, switches, and other electronics requiring delicate handling.

- Inspect, disassemble, and reassemble small electrical components
- Conduct functional and continuity tests
- Read and interpret wiring diagrams and specs
- Record detailed repair notes and test results
- Maintain ESD-safe environment and follow safety regulations

Total rewards

As an AAR team member your rewards include:

- Competitive salary based on experience
- 8% holiday allowance and 7% end-of-year bonus
- Profit-sharing opportunities
- Flexible start time between 6:00 AM and 9:00 AM
- 27 vacation days + 3.5 additional ADV days
- Comprehensive pension plan
- Supportive team culture focused on growth and innovation

Performance objectives

Technical quality – consistently delivers high-quality, precise repair work

Teamwork – works effectively in a team-oriented environment

Communication – communicates clearly in both Dutch and English

Independence – completes tasks reliably and proactively

Continuous improvement – contributes to technical and operational enhancements

Education and experience

- MBO level 4 in electronics or mechatronics

- 1–5 years of experience in electrical component repair
- Skilled in soldering and electrical troubleshooting
- Dutch and English proficiency
- Based in or near Hoofddorp
- We are looking for a candidate who lives in The Netherlands, preferably in or near Hoofddorp.

Why should you apply?

At AAR, “Doing it right” means putting quality, safety, and people first. You’ll be part of a global leader in aviation where your leadership makes a real difference every day.
