Mechanic Valves

The position

As a Valve Mechanic, you'll be part of the team responsible for servicing aircraft valves used in critical systems. Your focus will be on mechanical accuracy and compliance with aviation safety standards.

- Disassemble, clean, inspect, and reassemble valves
- Perform leakage and functional tests
- Follow procedures from technical manuals and OEM specifications
- Ensure precise documentation of your work
- Collaborate closely with senior team members and quality control

Total rewards

As an AAR team member your rewards include:

- Competitive salary based on experience
- 8% holiday allowance and 7% end-of-year bonus
- Profit-sharing opportunities
- Flexible start time between 6:00 AM and 9:00 AM
- 27 vacation days + 3.5 additional ADV days
- Comprehensive pension plan
- Supportive team culture focused on growth and innovation

Performance objectives

Technical quality – consistently delivers high-quality, precise work

Teamwork – works effectively in a team-oriented environment

Communication – communicates clearly in both Dutch and English

Independence – completes tasks reliably and proactively

Continuous improvement – contributes to technical and operational enhancements

Education and experience

- Completed MBO level 3 or 4 education in a technical field
- Experience with hydraulic, fuel, electrical, or mechanical components preferred

- Accurate, proactive, and technically skilled
- Fluency in Dutch and English
- We are looking for a candidate who lives in The Netherlands, preferably in or near Hoofddorp.

Why should you apply?

At AAR, “Doing it right” means putting quality, safety, and people first. You’ll be part of a global leader in aviation where your leadership makes a real difference every day.
